

## Zoom Settings to Record Bird Song

**Step 1:** Turn the dial on the top of the recorder so the white triangle points to **2ch**.

**Step 2:** Set the gain dial on the side of the recorder to **“10”**. Make sure to double check the dial is in the right position before making a recording, as it can move in transport.

**Step 3:** Select the Audio Format.

- ➔ Click the **MENU** button on the side of the recorder
- ➔ Use the **PLAY** toggle to highlight **REC** and push the **PLAY** toggle to select it
- ➔ Select **REC FORMAT** and scroll using the **PLAY** toggle to select **WAV44.1kHz/16bit**
- ➔ Exit by clicking the **MENU** button repeatedly

**Step 4:** To change the 2 AA batteries, press down with both thumbs on the back of the Zoom and slide the plastic case off.

**Step 5:** To access the SD card, open the plastic flap labeled “SD HC” on the bottom of the Zoom. Wav files are large; make sure you have enough space on the card.

**You are now ready to make recordings!**
